POSH

It's that time of year again; everyone's skin feels dry and tight after a sun-drenched summer. POSH Beauty Boutique, a luxury spa in the heart of the village of Bronxville, has started its microneedling season. Microneedling, a minimally invasive cosmetic procedure, uses a hand-held device with tiny needles to puncture the skin and stimulate the skin's natural healing process. It is used to treat and improve conditions like fine lines, wrinkles, brown spots, and acne scars. Microneedling is not performed in the summer months, therefore the window is short for obtaining optimal results. At least 3-4 microneedling treatments that are spaced out every 4-6 weeks are recommended. Due to the nature of the treatment, your skin needs ample time to heal between treatments. POSH also offers an extensive menu of services including facials, eyebrows, make-up, and spray tan. With the holidays approaching, consider purchasing a gift card. Visit www.poshbronxville.com or call 914-361-1277 for an appointment.

THE COPPER FAUCET SOAP COMPANY

The Copper Faucet Soap Company is a Westchester-based, woman-owned small business specializing in handmade cold process soap. Founded in 2015 in the kitchen of her Scarsdale home, owner Jill Staffin has expanded the business, which now includes a full line of handcrafted products for the bath, body, and home. She partners with other local small businesses to source ingredients for her soap recipes such as olive oil, coffee, and dried botanicals. You can find The Copper Faucet Soap Company at local farmers markets and holiday events in Westchester, Rockland, and NYC, as well as online.

BIO-IDENTICAL HORMONE REPLACEMENT THERAPY

Rosella Menta, R. PH., BHRT Specialist, has been specializing in Bio-Identical Hormone Replacement Therapy (BHRT) for over 25 years. She has studied and lectured with some of the top medical doctors and research specialists in the field from across the country. Working with your doctor, she has the knowledge and expertise to guide you through this transitional journey. Every person is unique, and your doctor will work with you to customize your hormone therapy.

Bio-identical hormones can be compounded in the precise strength and desired dosage formula and then administered in the most appropriate method to meet the patient's needs. All of the customized medications recommended by Rosella and dispensed by Rye Beach Pharmacy are prepared in their own PCAB-Accredited Compounding Laboratory. They have specialized in the art of compounding for over 30 years.

LAGRAVINESE JEWELERS OF PELHAM
